# KEELCLIFF REVIEW

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

Volume 22,

THE KEELCLIFF REVIEW

THURSDAY, FEB. 2nd 1933

Number 15

## Nominations To Take Place Next Monday

Four Councillors and Three Trustees Needed

Next Monday will be nomination day for the placing in the field of candidates for both the council and the school board. This year there will be one more needed on each board than last year's customary.

This was brought about by the death of councillor Smith who had another year to serve on the council and the resignation of A. J. Learmonth who also had another year to serve on the school board.

The retiring councillors are Messrs. R. C. Hargrave, P. Lavelle, C. Evans and there is the vacancy caused by the death of Mr. Smith. In all at least four candidates are to be secured.

On the school board the retiring trustees are Mrs. Kitchener and H. G. Sheasby besides the vacancy caused by Mr. Learmonth's retirement.

Nominations will take place in the town hall on Monday, February 6th between the hours of 11 o'clock a.m. and 12 o'clock noon. Mr. Frank Baird will be the returning officer.

If an election should be necessary the same will take place the Monday following Feb. 13th. It is hoped there will be at least the required number of candidates nominated to fill all the vacancies.

Those wishing to nominate candidates should see the returning officer, Mr. Baird, as soon as possible and secure the necessary nomination papers so that they can be properly filled in in good time.

## Rendition of Messiah Rare Musical Treat

The concert given by the St. John's Church Choir in Gordon Memorial Church last Monday evening, although poorly attended, was pronounced a great treat by those music lovers who were fortunate enough to hear it.

There were at least thirty-five members in the choir, under the competent leadership of Mr. Bullen, choir master, assisted by Mrs. J. Marsh and accompanied by Mrs. G. Edmond White at the piano.

The program consisted of selections from Handel's Immortal Messiah, all of which were rendered exceptionally well and were greatly enjoyed by an appreciative audience, as was also the talk given by Mr. John Hill on the subject of "Handel and the Immortal Messiah." After the concert the choir repaired to the school room where refreshments were served and courtesies exchanged.

The many friends of Mr. and Mrs. Sam Lowrie and Stanley will be glad to know that they arrived in England safely, after a very rough voyage.

## Redcliff Hockey Team Wins From the S.A.R.

Splendid Game Which Ended 3 goals to 2

The great improvement in speed, stick handling and team play on the part of the local hockey team made the game here last Sunday with the S.A.R. from Medicine Hat well worth seeing. The game was stubbornly contested from start to finish, Redcliff winning out by the narrow margin of 3 goals to 2.

The game started off with a rush with both teams having their share of the play and on several occasions it looked as though either side would score. The splendid work of both defences, however, spoiled the chances. After eight minutes play Stone scored the first goal for Redcliff on a nice pass from Mignault from the corner of the rink. Just before the bell for the close of the first period, Corbett equalized for the visitors on a nice piece of individual play.

Excitement ran high at the opening of the second period, both teams trying hard to gain the advantage. After ten minutes of strenuous play Noble did the trick for the visitors. This was the only goal scored during the period and put the visitors one up. The third period was the real thriller. Inside of a minute from the face off Lowrie made a rush for the visitor's goal and scored before the fans knew what was happening. Just one minute later another onslaught was made on Redcliff and in his anxiety to save a hot one from B. Podesta, one of the visitors' defence men got the wrong angle on his skate and the puck slid off into his own net. This made the score 3 to 2 for Redcliff and finished the scoring for the game. This did not mean, however, that the excitement and enthusiasm was waning. Both teams put up a stubborn fight to the finish but to much so that the penalty bench was decorated with players on several occasions.

The following were the players:

S. A. R.—Rayburn, Emery, Corbett, Noble, Gray, Woods, Gale, Forner and Lance. Redcliff—J. Podesta, E. E. Podesta, A. Podesta, J. Cairns, Lowrie, Swanson, W. Paterson, A. Paterson, Stone, Mignault, McCleary, McFadden and G. Oakland.

## S. O. E. SOCIAL EVENING A GREAT SUCCESS

The Sons of England social held on January 24th was a great success. There were about twenty tables of whist engaged in play during the first part of the evening. The ladies' first prize was won by Mrs. Newnham while gentlemen's first went to Mr. J. Lakey. The booby prizes were carried off by Miss McWaine who had to draw with Mrs. Luna for the honor, and Mr. H. Tanner respectively. At the conclusion of the whist dancing was participated in till 1 a.m. A fairly large number was present at midnight.

## Annual Meeting of Ratepayers Had Sad Ending

Mayor Gives Review of the Town Finances

The annual ratepayers' meeting held last Friday evening was brought to a sad and sudden ending by the death of councillor A. E. Smith.

Mr. A. Maclellan was selected as chairman and Mayor Woods opened the meeting by giving a review of the town's business for the year, laying special emphasis on the town's financial condition.

The chairman of the several committees had given their reports, each showing the work of their several departments had been conducted as economically as possible and on the whole had kept well within the estimates.

Before the school reports were received, the sad incident happened, and the meeting was forced to adjourn, but an opportunity was given to any who wanted to ask questions.

In his opening remarks, the Mayor gave a summary of the town's finances in which he pointed out that revenue had fallen off considerably because of conditions generally. His report showed that rent and water rates were in arrears by over \$4000, and that tax collections were over \$8000 behind, despite the raise in the tax rate last year of 5 mills. Referring to the debenture payments presently falling due, he said council was not in favor of using up all monies on hand, for this purpose, as that would leave nothing on hand with which to meet other obligations which were just as binding on the council as the debentures, and he was not so immediate a source of revenue to meet these other obligations.

## Big Night at Rink Tomorrow Evening

Full Program of Fun Is Now Assured

Everything is now ready for the big night of fun at the skating rink tomorrow evening. Every ticket purchased has three chances of winning a good prize free. A bag of flour a ham, and \$100 worth of bread will be carried home by those with the lucky number.

Besides the events published in our last week's issue, there will be the following novelties: open potato race; fancy skating by Baron Mauncheaux; matched race between Buck Father and The Flying Frog; Backward ladies' race; costume parade; bull fight; and other races.

All contestants must have a carnival ticket. Good prizes will be given for each event.

Don't miss this event. Proceeds for skating rink fund.

Shorty Mathony and Mayor Woods have a bet on the side of the outcome of the burlesque hockey match to be staged at the carnival Friday night.

## Alberta School Week Starts February 5th

The Occasion Will Be Observed Locally Next Week

Alberta schools will be in the time light all next week as pulpit, platform and press through out the province will focus public attention on the place of this school in our society. The object of "Alberta School Week" or indeed any "School Week" for it is a continent-wide movement, is to give the public a better understanding of just what is being done to prepare the youth of today to take their place in society, and, if the social order which awaits them is to be quite different from that of ours, to show what is being done to help them grapple with the problems which must inevitably be theirs. It is hoped, too, that Alberta School Week will bring the school and home into much closer co-operation as these two are the most important institutions for every child.

In conformity with the activities of many other schools, the local teaching staff has decided to hold a special visitors' day on Friday, February 10th, this being the last day of Alberta School Week. Any one interested in this work is invited to make a tour of inspection during the afternoon session and observe how the teachers conduct their classes. A special invitation is extended to all parents and the members of the school who will be pleased to conduct all visitors to any room which they may care to see.

After recess a special program will be provided, including a spelling match final to determine the best team of four spellers in the public school; a current event match for the high school scholars; a high school debate and weather permitting, a demonstration of physical training and organized games by the boys on the playground. There will be other features on the program, details of which will be announced in next week's edition of the Review.

For the present all interested in school work are asked to reserve Friday afternoon of next week for a visit to the school.

## BADMINTON FINALS

The final games in the Badminton tournament for ladies and gentlemen's singles were played off last night, Miss M. Waine winning from Miss Emma Frey, and Thompson from Simpson. Both games were splendidly contested and were thoroughly enjoyed by the numerous spectators.

Be sure to be at the Skating rink on Friday night.

Mrs. Scanlan was taken to the Medicine Hat hospital Tuesday morning, suffering from internal trouble.

H. O. Addison of the local I. O. O. F. lodge, has been elected to represent the lodge at the coming session of the Grand Lodge of Alberta, to be held in the city of Calgary on February 18th to 17th.

## Councillor Smith Dies Suddenly at Meeting

Had Just Given His Report When Heart Failed

Death came with terrific suddenness to councillor A. E. Smith at the annual ratepayers' meeting last Friday evening. Mr. Smith, who was chairman of the License and Police committee, had just finished giving his report and had just resumed his seat when those seated near him thought he had fainted. An effort was made to resuscitate him and Dr. Ward was sent for. When the doctor arrived a few minutes later, he pronounced the unfortunate man dead, a victim of heart failure. The late Mr. Smith has been troubled with his heart for some time and was undergoing treatment for it. It is thought the climbing of the stairs to the meeting room and the excitement of the occasion, overtaxed his already weak heart.

Deceased was born in Huddersfield, England, 51 years ago. He came to Canada 33 years ago and took up land in the Box Springs district, near his brother, Fred Here, who carried on farming and ranching, also giving special attention to garden stuff, for which he found a ready market.

Just about fifteen years ago he gave up farming and moved into town and opened up a meat and confectionery store and pool room in which business he has been interested ever since.

By his quiet disposition, fair mindedness, even temper, unswerving integrity and gentlemanly manner, the late Ernie Smith was one of the most likeable men we have ever known.

Deceased, whose wife predeceased him a little over six years ago, leaves two sisters and a brother in the old country and a brother and sister here. The latter are Mrs. Groves in town and Mr. Fred Smith north east of town.

The funeral, which took place from St. Ambrose church last Monday afternoon, was largely attended. The services at the church and the grave were conducted by Rev. P. Malcolm Stewart, the vicar.

The Mayor, councillors and town Treasurer acted as pall-bearers. The remains were interred in Redcliff cemetery.

By request no flowers were sent except by immediate relatives.

The anniversary of the birth of Bobby Burns, Scotland's beloved bard, was fittingly observed on two occasions in Redcliff last week.

On Wednesday evening a banquet was held in Gordon Memorial school room, and on Friday evening there was a banquet and concert in the local Legion club rooms, given by the entertainment committee.

Both events were well patronized and both were carried through very successfully. Great credit is due to the committees in charge, as well as to those who took part, for the success of both evenings.

## Council Holds Special Meeting On Finances

Consider Suggestions Made By Utilities Commission

A special meeting of the town council was held on Tuesday evening. The Mayor explained that the meeting was called for the purpose of considering a letter received from the Utilities Commission in connection with the town's financial affairs.

The letter was then read and said in part:

"The auditors have just reported to the board of the cash standing in the town of Redcliff as at Dec. 31, 1932 and as a result of the information supplied the board has authorized the provincial treasurer to transfer to the Imperial Bank at Redcliff for the account of the town the full amount standing to the credit of the town estimated at \$7,955.87."

The letter instructed that this amount must be placed in a debenture trust account to be used only in the requirement of coupons of the town and school district, which are now due and payable.

The letter also impressed on the council that present contingent reserves are exhausted and that the town must now bring its affairs into such shape that it will be possible to finance on the current revenue which can be collected. It further stated that it would not give the council permission to borrow any money.

It was further suggested that it was further suggested that all probability a sharp increase in the tax levy will be necessary this year as some must be taken to see that sufficient cash revenues are raised to provide for the obligations and commitments of the town and in that connection a relief effort should be made to collect at once any outstanding accounts payable to the town. It further suggests that council make an appeal to ratepayers for the pre-payment of taxes.

After discussing the situation from all angles, council appointed the Mayor and secretary a committee to draft a letter to the chairman of the commission, explaining fully the situation and giving the council's views in the matter.

A motion was also passed requiring Judge Carpenter, chairman of the commission, to visit Redcliff in the near future to go through fully the whole situation.

## JUST FOR FUN

The following is the second in the series of Limericks which the Review hopes the boys and girls are putting in their scrap books.

## A POOR FISH

There was a young fellow named Fisher;  
Who was fishing for fish in a fissure,  
When a cod with a grin  
Pulled the fisherman in;  
Now they're fishing the fissure for Fisher.

## The Leader for Forty Years

"Fresh from the Gardens"

## Opportunity Knocks In 1933.

Another year has gone, carrying with it into the limbo of the past an overall load of trouble, difficulties, losses and grief, but leaving behind a residue of problems to be carried into, and we trust to be to a very large extent, solved in the new year. We can well afford to bid a lasting good-bye to all the unpleasantness and worries of the old year, holding on only to those lessons which have come to us out of the experiences of the past.

Our faces are now set to the future; our thoughts and our planning should be of it and for it. A calendar for 1933 hangs on the wall before us as we write. Three hundred and sixty-five days! What are we going to make of them? What are we going to do with them?

Conditions, happenings, circumstances abound beyond our power to control with us, effect the trend of world events and of our lives. These we must meet as they come. It has ever been so; it will continue to be. This in this age it perhaps true to a greater extent than ever before, because man, through his own God-given genius has brought the whole world, and world influences, closely into our individual lives. But, even so, the fact remains that, as individuals, we still remain the greatest factor in the making or marring of our lives. We will start the new year right if we remember this great truth.

So, what are we going to do with and make of the year 1933? Are we entering it in a spirit of hopelessness and despair, seeing failure at the end? Or are we embracing it with gladness as presenting a new opportunity, a new hope, stimulated by a new confidence that substantial measure of success will reward our efforts in the direction of individual, national and world betterment?

Are we bowed down by a fatalistic idea that nothing could be worse than what is, and therefore, recklessly prepared to go to any lengths in the adoption of anything advanced as a remedy no matter how desperate it may be? Or do we still retain courage in ourselves, in our abilities and powers, to remedy the misdeeds of the past, to be the victors, right the wrongs, and apply our individual intelligence and energies to the solution of the problems now confronting us?

In this new year it will not be so much existing institutions, political and economic, that have failed to function properly, rather than the systems and machine. And it is the human factor, that is in us and I individually and collectively, who are mainly at fault. It is our vision, our way and manner of thinking and living, in our ambitions, that weaknesses have developed; it is in ourselves that reform is most urgently needed. It is upon us that the responsibility rests to do, directly, ourselves and govern machines that they will work and not be thrown out of gear.

This thought brings us back to our original question. What are we going to do with the 365 new days now presented to us? Are we going to grasp them, bend them to our will, make every minute of every one of them work to our individual and mutual advantage? Or are we about to throw up our hands in despair, and say: "What's the use? Are we going to fight a gallant battle, or ignominiously surrender and admit defeat? Are we to deny our God-given faculties and powers, our dearly bought birthright of individual liberty and freedom, and be content to forego our responsibilities and become mere cogs in a machine?"

Rather, does not this new year beckon us to a reassessment of our individuality, to a new application of our powers to our own problems? As we look back for a moment over the past year, we do not discover that we enjoyed the greatest happiness, entertained a greater self-respect, yet, felt a greater satisfaction in life and received a richer reward therefrom, when we fought our own battles and relied upon our own efforts than in these latter years when so many have depended upon others to help them rather than make an extra effort to help themselves? Did we not feel more like men when we shouldered our own burdens, and gave a lift to others more heavily burdened than ourselves, than when we could feel in giving the fight, and abating our burdens on to others, even though the "others" be the community and nation as a whole?

Canadians are a self-reliant people. They have fought a good fight during the past three years of depression. It has been a hard fight, a fight against heavy odds, and, in many respects, against factors beyond our own control, and the battle is not yet ended. But it will end, and end in victory if we do not weaken. Factors undisturbed of a few years ago are coming up as reinforcements because the depression has taught the world lessons it would never have learned in years of prosperity. These lessons are along constructive lines; the destructive proposals which always are advanced when people are perplexed and in trouble. This new year can carry us far along the road to victory if we use it right. And the right way to use it is to apply our individuality to the problems that lie at our hands, just as did the pioneers of old, but not give heed to the wailing Jeremiahs of despair.

## Trafalgar Across the Sea

A successful, television transmission from London to Copenhagen, Denmark, was made recently. The reception was on a screen, of about three by nine feet, in a Copenhagen theatre. The pictures and voices were picked up by the Vestfronten Wireless Station and transmitted by land lines to Copenhagen.

Imports of American raw cotton into China are expected to increase within the next year.

## Nervous—Could Not Sleep Tired Out All The Time

Mr. George Steinhilber, Newburg, N.Y., writes: "I was so very nervous I could not sleep at night, and felt tired out all the time. A neighbor told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were doing me so much good I purchased a box and have enjoyed wonderful relief."

Get the full story at all drug and grocery stores, put up only by The T. Milburn Co., Ltd.

## Investigate Cosmic Rays

Prof. Picard Plans Balloon Ascention in Hudson Bay Area

"Plans for balloon ascension in Belgium last summer, and in northern Canada in 1934 have been announced by Prof. Auguste Picard, who has made the farthest trip from the earth on record."

It was not certain whether he himself would participate in the flights. Picard plans to make a trip to the near future for Canada where he will study possibilities of an ascension in the vicinity of the north magnetic pole on Boothia peninsula in the Canadian Arctic.

A new ascension, Prof. Picard was necessary to clear up the question of whether cosmic rays originate from stars or galactic nuclei.

If the former be true, said the "World," they'd be deviated by the earth's magnetic field ought to be detected at high altitudes where the magnetic pole is in the Hudson Bay region.

He said that the power of the cosmic rays was much that, previous to their striking the atmosphere, a drop of water under their influence would be able to yield sufficient electricity to provide New York with several hours of light.

## Works On a System

French Scientists Always Organizes Time To The Minute

M. Herriot, who is much in the public eye just now, was recently described by the News of the World as the most picturesque figure in French politics today. Short and stout, with a well-developed nose and a heavy, dark eyebrows, he is a schoolboy's high spirits. He is also one of the very few French statesmen who are devoted to policy-making. He was the son of a widowed mother in poor circumstances, and by dint of hard study he became a professor of physics and literature at one of the universities. He is still a prodigious reader, and has written many books on politics and literature.

When asked how he has managed to indulge his literary leanings in addition to fulfilling his heavy official duties, he has been Mayor of Lyons for 25 years—he says, "It is just system." He organizes his life to the minute. "It was a splendid work by Lyons that brought him his first Government appointment—that of Director of Revolutionary Studies in the war—and since then he has never been far from the centre of French politics."

## Cannot Be Duplicated

Valuable Mah Jong Set Belonged To Chinese Governor

Efrem Zimbalist, violinist, has returned to New York from the Orient with what he believes is the most superb mah jong set in existence. This object and many more are in the recent acquisitions sections of the Metropolitan Museum of Art. The mah jong set belonged to the Governor of Shanxi and the money which he had sold for the set was used to pay for the Governor's funeral. It was sold because money was needed for the elegant funeral necessary for such a dignitary. Every piece in the set is of an extremely beautiful type of agate. In each piece the proper figures are carved and the inscriptions are in laid with precious stones. The color scheme is dazzling. The violinist understands that his mah jong set is perhaps 300 years old and that it cannot be duplicated today.

## Patronize New Highway

Thousands of Cars From West Travel To Denver, It Is Claimed. The opening of the inter-provincial highway between Ontario and Manitoba brought a tremendous volume of new tourist business to the latter province. The official count showing that from June 1 to October 31, fifteen thousand cars and light trucks had come from the west, and from November 1 to 30, when traffic then tapered off, the number was increased to nearly 18,000, and it was supposed making a grand total of sixteen thousand four hundred and thirty-four or approximately thirty-seven thousand five hundred and thirteen tourists.

## Really Quite Simple

The splitting of the atom is quite simple when explained by Lord Rutherford. The passage of the invisible neutron into the nucleus of an atom, said he, is like an invisible man passing through a closed door. The path can be traced only by the people he has pushed aside.

After a long absence several native plants in Chile are returning.

## MAY BECOME PREMIER

If Premier J. E. Brownlee of Alberta is appointed a member of the Canadian Tariff Commission, it is reported that, Robert Gaudin, M.P. (above), Progressive Leader in the House of Commons, will retire to accept the Premiership of the Western Provinces.

## Now Comes "Electric Dollar"

Scientists Have Idea To Do Away With Depression

A new kind of money, the "electric dollar," with its value based on electrical energy instead of gold, was proposed as one way to do away with depression, before the American Association for the Advancement of Science, meeting in New York. It would be issued in the form of currency, like the paper money now in use, and would end depression because it would always purchase approximately the same amount of goods as the United States dollar.

The "electric dollar" would be valued in terms of kilowatt hours, the unit by which electricity is measured, and which Dr. North said is the same in quality and quantity everywhere in the United States.

Gold currency would continue to exist and would fluctuate in value with reference to the electric dollar, but, as foreign currencies now fluctuate with reference to United States gold currency.

## Boom To Bicycle Business

British Manufacturers Find Demand for Bicycles Growing

British manufacturers of bicycles and tricycles report a boom in their business comparable to that in the wheel-and-motor "Wols." Auto manufacturers say that fifteen months ago he and others in that industry were faced with ruin. Of a sudden the cycle boom appeared and within a few months they were employing 30 per cent more wheelmen than at any other period during the last twenty-five years.

Bicycles riders in England are considered something of a nuisance on the roads, as motorists find it difficult to dodge them. The same condition was in existence in England up to last year, but there has been a steady falling off in the use of automobiles due to the high British taxes on all vehicles. So now the wheelmen are coming back in great numbers.

## Salvaging Dutch Liner

Belgian Ship Was Torpedoed in North Sea

Next among the munition ships to be explored for its treasure, the Dutch liner "Tubana" which was torpedoed in the North Sea in 1917. There has been considerable mystery regarding the fate of this vessel, which was carrying when she went to the bottom, but it is believed she had a large sum of gold which was being sent from Germany to the United States for financing war propaganda.

The gold, it was stated, amounted to nearly \$5,000,000 and was supposed to be hidden in Dutch chests. Salvage efforts in 1928 had to be abandoned, but the success of the "Arcturion" in recovering the gold of the "Regin" suggests that a second attempt to get at the "Tubana's" treasure may be fruitful.

London historians have found that the city's first library was housed in a Crofton manse, which was burned down nearly 1,000 years ago.

Insurance have been known to take a loss of 300 years to mail.

The use of live dogs for quick hunting is illegal in Alberta.

## Java's New Currency

Merchants Accept Cigarette Coupons In Payment For Anything

They're using cigarette coupons for money in Java. A fall of these "cigarette coupons," which can be bought for anything from soap to nuts and you have Carl H. Boehringer's word for it. Coupons are being used as far as the eye can see, including phone graph records and even motor cars. Boehringer, who is Assistant Trade Commissioner at Batavia, is with the Department of Commerce at Washington about Java's financial problems didn't say how many coupons will produce a bill of sale for an automobile, but hinted that business in this "paper" is so active that various enterprising individuals are now carrying on a brokerage business in them.

Fit the poor Javanese—shades are getting fewer and fewer. For some time past, said Boehringer, actual money among the natives has been so scarce that they are using the recent rice harvest laborers were paid not in money but in kind.

Cigarette coupons came into the monetary picture when various domestic producers began active competition and each issued coupons for their products. The coupons had money almost impossible to get the natives, through necessity, embarked on a new currency program.

Need for real money has not diminished, despite the fact that the situation is aggravated by the fact that the opportunity for work on the large estates is being reduced while the small ones are being sold downward. Natives, although receiving less money, found no diminution in the value for it, as land, back debts and purchases of fertilizer had to be maintained.

## Recipes For This Week

(By Betty Barclay)

## MOCHA COOKIES

- 1 cup shortening
- 1 cup sugar
- 1 cup molasses
- 1/2 cup coffee
- 1/2 cup flour
- 2 eggs
- 1/2 teaspoon soda
- 3 teaspoons cinnamon
- 1 1/2 teaspoons ginger
- 1 teaspoon ground cloves
- 1 teaspoon salt

Cream shortening and sugar. Add well beaten eggs, and coffee mixed with water and molasses. Stir all spices with flour and add to mixture, making a soft dough. Drop on cookie pan, a tablespoonful for each cookie.

## CONNECTICUT STEW

- 1 1/2 pounds fresh, lean pork
- 3 plants hot parsley
- 3 cups dried parsley
- 1 tablespoon finely chopped parsley
- 1 cup sliced onion
- 2 tablespoons flour
- 1/2 teaspoon sugar
- Salt and pepper

Put the pork into small pieces. Brown in a frying pan. Add the water and simmer until the meat is nearly tender. Add the vegetables and seasonings, cook for fifteen or twenty minutes. Mix the flour with a small quantity of cold water. Add to the meat and vegetables. Cook until thickened. Sprinkle parsley on top of stew before sending to the table.

## On Wheat Committee

Prof. Alf of Saskatchewan University Asked To Assist With Problems

Prof. Alf of the University of Saskatchewan, has been asked by Premier J. T. M. Anderson to accept a place on the wheat problems committee. A body met in Regina at the inter-provincial conference in Winnipeg.

Members of the prairie provinces are members of the committee, and so is Professor H. C. Anderson, of the University of Manitoba. The latter will represent the "National" Council, at which the plan fostered by the United States to limit production will be discussed.

Waiter—You first met my daughter at the seaside, I believe? She told me her hair and clothing were stolen.

Butler—Did she really say? Why, she told me you'd be furious if you found out she'd stolen.

The modern word plumber owes its origin to the Romans, who used the word plumbum, lead, to mean water pipe or spout.

## EGGS GAVE HER INDIGESTION

When this woman of 73 years found a remedy for her indigestion, it proved to be one her 10-year-old brother was already told to keep him "in perfect picture of health." She writes:—

"For me, eating, drinking, and indigestion, and simply could not eat an egg or a potato. I took an aperient regularly, but it did not help. I began this year taking a small dose of Krut's Indigestion Remedy. Now I can eat eggs and potatoes and enjoy them—without any after-effects."

"My brother is a perfect picture of health, and a splendid advertisement for Krut's Indigestion Remedy. He is always bright and happy. He never forgets to mention dose—another do I now that I know the value of it. My brother is 70 years of age, and enjoys these valuable salts. I recommend them to all my friends."—Mrs. M.E.M.

## Soviet State Farms

Not Delivering Grain

Have Fallen Down Badly In Deliveries To State

The state farms, to which Soviet government has been paying out approximately one-seventh of its grain resources but also to act as an example for collective and individual peasants, were pictured as having fallen down badly in their deliveries to the state.

For a number of years this branch of agriculture has fulfilled only 77.5 per cent of the collections assessed against it and it is supposed to be completed December 15, the newly-created commissariat for grain and cattle breeding state farms issued stringent orders for immediate improvement of the situation, which it described as "shameful."

It condemned those farms in Siberia, Western Siberia, and the Urals as most backward, directing attention to the fact that the best Siberian tract had the worst showing with only 80 per cent of the collections completed.

Placing responsibility directly on the shoulders of the individual factors of the state farms, the orders threatened them with arrest and trial unless effective measures are taken to complete collections forthwith.

## American Farmers' Bad Way

About Forty Per Cent. Of Farm Lands Under Mortgage

Approximately 40 per cent of the farm lands in the United States are under mortgage.

This was the estimate of Sir England, assistant chief of the Bureau of Economic Warfare, before the House appropriations subcommittee at hearings on the annual agricultural department supply bill.

About five per cent of these farms in England said, have mortgage debt in excess of their value; about 10 per cent of these farms have 75 to 90 per cent of their value and 25 per cent of them from 50 to 75 per cent.

Much of this indebtedness is being wiped out through the drastic foreclosures method, he said.

## Manitoba Gold Area

American Mining Engineer Impressed With Richness Of Gold Lode

Gold Country

God's Lake gold country is bigger than anything in the United States. This is the statement of W. K. Harding, a mining engineer of Minnesota, who has spent more than a month in locating properties 300 air miles northwest of the lake.

After five per cent of these farms in England said, have mortgage debt in excess of their value; about 10 per cent of these farms have 75 to 90 per cent of their value and 25 per cent of them from 50 to 75 per cent.

Much of this indebtedness is being wiped out through the drastic foreclosures method, he said.

## PATENTS

A LAW OF "PATENT INVENTION" and "PATENT RIGHTS" is now being passed by the RANSAY Co. Ltd.

The RANSAY Co. Ltd. 212, RIVER ST. LONDON, E.C.4.

### STARTLING REVELATIONS

During the past week Prime Minister Bennett has been doing some very plain talking, as a result of which Canada's present position has been made very plain. To a Toronto audience the Prime Minister said "Canada cannot and dare not depart from sound money." A few days later Mr. Bennett told a delegation of railway men that the railway problem in Canada is threatening the very economic life of the country. Like the fabled old man of the sea it was clinging to the back of Canada, slowing its life, he said.

To a delegation from the Trades and Labor council the next day the Prime Minister said Canada's greatest concern at the moment is industrial and financial structure. He intimated that many of the requests made by the delegation were impossible because of the burden on the national treasury. "We are dangerously near the limit of this country to pay additional taxes," the Prime Minister said. He added that this applied not only to Dominion but municipal and provincial taxes as well. Mr. Bennett pointed out that a total of \$21,500,000 a month or \$250,000,000 a year now had to be raised for only three federal purposes: interest on public debt, war pensions and the Canadian National Railway deficits.

These are startling revelations and should serve as a warning to all individuals and organizations who have been in the habit of running to councils, legislatures and parliament, praying for the adoption of new fangled ideas and for legislative enactments which mean the spending of more money and necessitating the raising of taxes.

These are indeed troublesome times all over the world. Last Saturday Chancellor Kurk von Schleicher, heading the 20th German cabinet since that country became a republic, resigned after being in power for only 56 days. On the same day the French government, headed by Joseph Paul-Boncour was forced to resign after being only 40 days in power. The causes for the overthrow of both these governments give some idea of the unsettled conditions throughout the world and the multiplicity of schemes and ideas being brought forward for the solving of the many problems now facing all governments. Apparently governments which are trying to cater to, and please all elements are very short lived, and are pleasing nobody.

On several occasions in the past the Review has drawn attention to the indifference of ratepayers on nomination day. As more than the usual number of nominations will have to be made this year—which will necessitate new candidates for both the council and the school

board—it is hoped that the selections will not be left till the last minute as is often the case.

The splendid showing put up by our local hockey players, in their last game, shows what a little organization, interest, enthusiasm and practice will do. The same ingredients applied to all lines of community activities in town would have the same beneficial effect.

In another page of this issue attention is called to "Schol Week" and its aim and object. It is hoped that parents and citizens generally will show their interest in this important matter and lend their encouragement to the teaching staff by accepting the invitation to visit our school on that occasion.

Sing a song of Glass Plant,  
We've flour in the bin;  
If 'twere not for the Glass Plant  
We'd all be mighty thin.

We've coffee in the cannister,  
The teapot's full of tea;  
If 'twere not for the Glass Plant  
How thirsty we would be.

We've sweaters and we've overalls,  
And common sense to see  
If 'twere not for the Glass Plant  
Right chilly we would be.

We still can entertain our friends,  
Beneath our own roof tree,  
If 'twere not for the Glass Plant  
How sad our lives would be.

So let us give the credit  
Where the credit ought to be,  
And thank the good old Glass Plant,  
That succours you and me.

And tell old man Depression,  
His Song of Doom is sung  
In Redcliff, if the Glass Plant  
Will but run and run and run.

The province of Alberta is enjoying the rather doubtful distinction this winter of having turkeys so cheap and so plentiful that, probably for the first time in history, turkey meat is on the regular meat course of the "two-bit" meals at city restaurants in the province. It has ceased to be a luxury. In fact, turkeys are a popular medium of barter for the farmer these days. The province reached the peak of its turkey production last season, and is firmly established in its position as the "turkey province of Canada."

### Redcliff Reminiscences

Taken From Our File of  
Feb. 2-1912

To date the name Redcliff does not appear on the railroad maps of the C. P. R. The Review thinks this is not fair or just to a town that furnishes from 20 to 50 cars of freight a week to this road.

The manager of the Brick and Coal Co. states that the company broke all records last week in making brick in this northern climate in the winter time. This plant has a capacity of 70,000 brick per day and has been running on full time so that over 400,000 brick would probably be the output for the week.

Mr. J. L. Landis of Calgary, was in town this week and paid the Review for a year's subscription in advance. "Editor's note. 'Oh for the good old days!'"

Mr. O. H. Davidson is building four houses, three for the Realty Company and one for Mr. Harry Haywood.

A lodge of the Independent Order of Odd Fellows will be organized in Redcliff on Feb. 14

The tournament at the Badminton Court is nearing completion. Only two games are to be played now to decide the winners in the ladies and men's singles respectively, that between Misses Emma Frey and McWaine in the former and Messrs. Simpson and Thompson in the latter.

Thanks For Things  
As They Are  
By  
CLARA WOOTER

I went C.P.R.-ing  
I Over the prairie  
Where flat things are flatter  
Than ordinary,  
Far things are farther,  
Near things are nearer,  
High things higher,  
Sore things sorer.  
Earth, a shorn sphere,  
Went wheeling and whirling,  
Twisting and twirling  
Around to the rear;

Ethereal seal how the old, wild  
brees,  
Pale; furnished for trees,  
Shrieked in seventeen keys!  
Till I feared we'd be hurled  
To some five-pointed world.  
But the wind fell asleep;  
As the sky fell aflame;  
And my fears fell away,  
And the Past filled a frame...

I saw the lean Indian  
Trudging and trailing...  
I heard the dry river cataract  
Screaming and walling...  
I gave thanks I live now!  
And hark!—and how!  
And not on a star's  
Far's  
Mare,  
Where they've no C.P.R.'s!

I saw the lean Indian  
Trudging and trailing...  
I heard the dry river cataract  
Screaming and walling...  
I gave thanks I live now!  
And hark!—and how!  
And not on a star's  
Far's  
Mare,  
Where they've no C.P.R.'s!

I saw the lean Indian

WORLD HAPPENINGS  
BRIEFLY TOLD

William Moore, who died recently in Westminster, England, was in church choir for 32 years.

Imports into Poland from Great Britain in the first nine months of 1932 were 50 per cent more than in the same period of 1931.

Two speech clinics have been opened in New York for children who suffer from defects and handicaps in speaking.

The Canada-Irish Free State and Canada-Southern Rhodesia Imperial conference trade agreements were brought into force on January 2.

Captain J. A. Molloy, the long-distance flyer, will start from England on February 7 for a flight to Rio de Janeiro by way of Africa.

By order-in-council the government has continued until March 31, 1933, the most valuable of the pound sterling for special duty purposes at the rate of \$4.60.

More than five times as many bananas were exported from the French West Indies in the first eight months of 1932 as in the same period of 1931.

A new tariff order issued at Dublin, Ireland, withdraws, in effect, the preference hitherto given to British boots and shoes, men's clothing and certain iron and steel articles.

Japanese are gradually gaining on Chinese in the population in Victoria, B.C. There is now listed 22,300 Japanese and 27,130 Chinese. Native Indians number 24,500.

The Prince of Wales consented to introduce a series of broadcast talks on unemployment, which will be given on successive Fridays. The purpose of these talks is to help those who are themselves victim to help.

Export of wheat from the port of Vancouver from the beginning of the crop year, August 1, to the end of December, aggregated 47,000,000 bushels. This volume sets a new high record for the period, exceeding the best previous record by 10,000,000 bushels, net in 1928-29.

## Hard To Identify

Sketch of Newspaper Artist Not What It Looked Like

An amusing story is told by Sir Philip Gibbs concerning an artist who was sent abroad by the editor of the London Illustrated paper. His job was to make sketches of the country and the people. It was however, his first experience, and he made a mess of it. The sketches he sent home being very poor, and at times quite unintelligible. The editor took it to task on his return, and told him that if he could not make a recognizable sketch of anything it would have been far better to have indicated in a word what the picture represented. "Take this one, for instance," he continued, picking up one of the artist's sketches. "Since you were apparently in such a hurry that you hadn't time to draw it more carefully, why didn't you write above it: 'This is a Windmill'?" Then our people would have known what it was intended for, instead of which they had to guess. "That it isn't a windmill, it's a man on horseback," replied the artist.

## Had Wonderful Memory

Head Porter in Savoy Hotel Seldom Forgot a Face

A fortune of £20,000, made chiefly in tips during his 20 years as head porter in the Savoy Hotel in London, England, has been left by Nicholas James Mockett, who retired in 1926 and died recently at the age of 72. Coming in contact with about 25,000 American visitors annually, it is said he had a photographic memory and seldom forgot a face or the name of his distinguished guests. According to the London Daily Mail, J. Pierpont Morgan once invited him to spend the summer vacation as his guest in the United States, but Mockett, who never travelled farther than Margate, declined, as he did the invitation of the American Hotel Proprietors' Association to attend a New York banquet as the guest of honor. Mockett spent his retirement in writing a book of reminiscences.

## Divided Not Wanted

Depression? Poor! Five thousand customers of the Home Savings and Loan Association at St. Louis have notified it. R. A. Fraser, auditor, said that cheques for \$100,000, written Sept. 1, when the association's receiver declared a dividend, had not been called for by the clients.

A pedestrian is a person who finds that it doesn't pay to go straight.

W. N. U. 1975

## Winnipeg Newspaper Union

By Ruth Rogers

SMART, ISN'T IT? SHELL LOVE IT!

And you'll love it too! When you find out how really inexpensive it is to carry it out as the original in peach colored crepe satin, you'll be amazed. Choose the kind of crepe in deeper blending low satin crepe. The pupin effect gives it such a dainty young air.

Style No. 980 is designed in sizes 14, 16, 18, 20 years, 24, 34, 40, 42 and 44 inches bust.

Pale blue crepe de chine with Alençon lace trim is unusually effective. Flowered batiste or nylon are also suitable.

Size 36 requires 5 1/2 yards 38-inch, with 3 1/2 yards ribbon and 7 yards binding.

Price of pattern 20 cents in stamps or coin (not in preference). Wrap only carefully.

## The Friend Of Europe

France Far From Being Enemy Of The League

France is often represented as the enemy of the League; but it would be more exact to represent her as the friend of Europe. In default of general disarmament of which there is yet no vestige—a one-sided armistice is at least a valid guarantee against war. It must be one thing or the other: either a Europe which has unanimously carried its weapons to the common scrap-heap, or a Europe in which the victors of the last struggle remain perpetually ready to deal with any impious to renewed aggression.—London Morning Post.

## Revises Biblical Stories

German Professor Believes Children Of Israel Did Not Cross Through Red Sea

Evidence that the children of Israel did not pass through the Red Sea when Pharaoh and his host were swallowed up is adduced by Dr. Otto Eberhard, professor of Old Testament history in the Halle University. He has written a book on the subject, "The Children of Israel and the Red Sea," in which he argues that the biblical story of the crossing of the Red Sea is a myth. He points out that the Bible mentions that the Israelites were in the Red Sea for three days, but that the sea was not parted for three days. He also points out that the Bible mentions that the Israelites were in the Red Sea for three days, but that the sea was not parted for three days.

"Did the major show presence of mind when the town had caught fire?"

"Yes, he cancelled the fireworks display arranged for that evening."

## Figures Are Still Dropping

Liquor Sales Have Fallen Off Heavily In England

Englilshmen have distinguished a record for sobriety in the last year. With the exception of 1918, when millions of men were at war, there were fewer cases of drunkenness than at any other time in the nation's history. They numbered only 42,200, compared with 188,000 in 1913.

Not only drunkenness, but drinking itself has declined to a marked degree in the last two decades, chiefly because of the steadily rising cost of liquor and the huge tax. In the last year, which saw the country's purchasing power sink to its lowest level, liquor sales fell off heavily.

During the war drunkenness declined to the low level of 23,100 cases in 1918, but this standard was not maintained after peace was restored. Some of the cities hit hardest by the depression show the greatest increase in sobriety. Liverpool, for example, which had 1994 cases of drunkenness in 1913, recorded only 2,161 last year.

## Has Faith In Canada

American Financial Magnate Says Dominion To Lead Way Back To Prosperity

Calvin Bullock, long established in New York financial circles, has returned from a business trip to Canada direct from the Dominion of the future of property will shine on the Dominion independently and in advance of the United States.

The financial outlook in terms of the good he believes will accrue to Canadians in general from the empire preference drawn up at the recent imperial conference. He said the unbounded mineral resources of the country, her growing importance in manufacturing, her rich agricultural lands, the yet undeveloped potential markets for many of her products made the outlook for Canada and Canadians decidedly attractive.

He foresees the establishment and expansion of industrial units in the Dominion. He said the unbounded mineral resources of the country, her growing importance in manufacturing, her rich agricultural lands, the yet undeveloped potential markets for many of her products made the outlook for Canada and Canadians decidedly attractive.

## B.C. Chickens For China

Missionary Taking Two Pans Of Pedigreed Poultry Stock

Rev. W. B. Albertson, a missionary of the United Church of Canada, left Vancouver for West China on the "Empress of Japan" taking with him two pans of pedigree poultry stock for use in the agriculture department of the West China University. The pans are the gift of a small group of Vancouver people interested in this phase of missionary work.

In addition to his preaching stations, the United Church trains Chinese as doctors, dentists and teachers and has an aggressive agricultural department. While, though not yet a faculty in the Union University, helps the Chinese to improve dairy and poultry stock and fruit orchards. Rev. Frank Dickinson, who is in charge of agricultural work at the university, sent the transportation expenses for the shipment. The attempt to take poultry from British Columbia is one of the pioneer efforts in this line and will be watched with great interest.

## They Are Learning

New York paper says 90 per cent of all the money borrowed from United States by Great Britain during the war was expended in the United States to buy munitions and supplies. Can it be that realization that U.S. got the chief benefit from these war debts is beginning to sink in?—Ottawa Journal.

## Must Go After It

There is an enormous amount of business which Canada could do and ought to be doing with the Orient. But it is useless for our exporters to imagine that this business will come to them without the asking.

Smith—My wife runs a thrifty shop on a huckle out of an old dress of hers.

Jones—That's nothing. My wife has her dress out of one of my ties.

The Chinese felt that considerable accuracy by looking at a cat's eye. The pupil becomes narrower as noon approaches and wider as the afternoon wanes.

## NOTABLE NEWLYWEIDS

## Something To Be Proud Of

## At Winter Fair

Short horns, calf made good record

It was just a little red and white Short horn calf, but under his velvet hide he must have carried an efficient bone-structure plant, because he had made exceptionally good use of his time. He was born Jan. 5, 1932, and he was on the scales at the Royal Winter Fair at 950 pounds.

This means that, including birth weight, this precocious youngster slacked up nearly three pounds of weight for every day of his short life. At the Royal Winter Fair, Toronto, he was reserve grand champion steer of the show, but at the Provincial Winter Fair, Guelph, he was made grand champion over all breeds, an exceptional performance for a junior calf.

At the Royal sale of fat cattle he was sold at the modest price of 10 cents per pound, but he was the second animal sold, following immediately after the grand champion, which is a decidedly bad place to occupy at a sale. His selling price plus prize money, netted his owner, E. Holman & Son, Denzil, Ont., at least \$425, which is not bad for a calf that spent seven months old in times like these.

John Milton Bailey, son of Sir Abe Bailey, multi-millionaire, South African diamond magnate, is shown with his bride, the former Diana Churchill, daughter of Winston Churchill, noted British statesman, as they left St. Margaret's Church, London, England, after their wedding, recently.

Hard On Dairymen

Milk Distributors In London Lose 100,000 Bottles A Week

One of the largest milk companies, which distributes 624,000 bottles of milk in London, England, and the home counties annually, calculates its loss to be more than 100,000 bottles a week. Each bottle cost 6¢, and the annual value of 2,500,000 bottles amounts to \$25,000.

For some strange reason Bank Holidays usually account for most of the missing bottles. No fewer than 5,000,000 were lost on Whit Monday. Thousands were found to have strayed on to Hampstead Heath; more 2,500 were collected from Margate beach.

Another source of loss is the hoarder. There are, it is alleged, persons with a bottle-collecting complex. They have no desire to steal, but regard milk bottles in the same light as collectors look upon snuff-boxes or postage stamps. One woman was recently discovered with 237 "empties" in her house.

Losses would be considerably higher if it were not for the work of the Dairymen's "Scout" Yard. This body, which is subsidized by every dairy in the country, is responsible for the recovery of bottles and churns that have been lost, stolen, or mislaid. The possibility of mislaying a churn is indicated by the fact that 3,000 were found last year astray on railway platforms.

Colder Than Ice

New Compend 60 Degrees Below Temperature Of North Pole

A remarkable refrigerating agent which is 60 degrees colder than the temperature of the North Pole is being used for the transportation of fresh fruit. This material, which is a preparation of carbon dioxide in solid form, resembles in appearance blocks of compressed snow, but since it has a temperature of 144 degrees of frost it has some four times the refrigerating power of ordinary ice. Its use for the transport of fruit are exceptional in that fruit breathes, and if subjected to a suitable quantity of the gas, "recovers" or falls into a state of suspended animation, until it is again exposed to the air. The complete absence of moisture from the compound enables it to be used in the packing of parcels to be sent by rail or through the post. Its "operative" life is up to three months.

Work Of Pioneer Investor

Glasgow Pioneer Has Performed Top And Bottom-Skating Gyroscopic

Professor James Gordon Gray, pioneer investor of the industrial compound, was today skating on the top and bottom of a gyroscopic. He has a top which spins 25,000 revolutions a minute. Placed in a box, the top walks the length of a steel wire. He has a roller-skating gyroscopic which will do figures of eight control.

The editor wants the reporter to say that he is sorry he said Mr. J. Thompson was a big crook and he is and he can punctuate this any way he wants to.

Glasgow, Scotland, has a war on dog racing.

## Preparing For Future War

## Scientists Believed To Be Working On Poison Gases

John Drinkwater, British poet and playwright, believes poison gases and disease germs probably are being prepared on a large scale for war.

Addressing the Institute of Arts and Sciences of Columbia University, Mr. Drinkwater asserted that scientists of cities by these means is being done and "stamp it out as they would stamp out a nest of gnomes."

"The scientist who is using his talents for such ends is an anti-social menace of the most contemptible kind and should be treated as such. Here is a campaign for the press to undertake that would bring it everlasting honor."

"If there is the smallest margin of doubt on this dreadful issue, a general condemnation by the governments of nations would mean that we are understanding not to employ them. It is not enough."

He asserted governments should consider that the most serious thing being done and "stamp it out as they would stamp out a nest of gnomes."

Use New Station

Building Was Ready For Broadcast Of King's Christmas Message

From a quick and open brick building, little larger than a town's shop house, on the rather dreary uplands above the town of Dunfermline, Northumbria, England, the King's message to the Empire was relayed on Christmas Day. This building is the new Empire station of the British Broadcasting Corporation, which was opened only a few days before majesty committed his voice to the ether.

All the equipment of the new Empire station is British made. Naturally the whole of the British Empire can be served with one voice, so for radio purposes the Empire has been divided into five zones—Australia, India, Africa, West Indies and Canada.

The main part of the empire service will depend largely upon the close co-operation of overseas listeners. In the early days the programme will consist for the most part of excerpts from programmes broadcast in the British Empire.

The B.B.C. is anxious to receive opinions from overseas.

Losses Citizenship By Marriage With American

Canadian Woman Refused Re-Entry To Her Native Land

Although she entered the United States legally under bond, Mrs. Helen Margulies, 32, formerly of Prince Albert, Saskatchewan, refused to return to Canada because she married a United States citizen while on a visit across the border. Margulies, who has two children, aged 10 and 12, was refused entry to Canada and went to Lexington, Ky., nearly a year ago to visit her mother, Mrs. Margulies, who had married a Canadian and was in the process of obtaining a divorce. She was stopped at the border and informed she had lost her Canadian citizenship by marrying Margulies, a Canadian citizen. She was refused entry to Canada and went to Lexington, Ky., nearly a year ago to visit her mother, Mrs. Margulies, who had married a Canadian and was in the process of obtaining a divorce.

Canadian Woman Refused Re-Entry To Her Native Land

Although she entered the United States legally under bond, Mrs. Helen Margulies, 32, formerly of Prince Albert, Saskatchewan, refused to return to Canada because she married a United States citizen while on a visit across the border. Margulies, who has two children, aged 10 and 12, was refused entry to Canada and went to Lexington, Ky., nearly a year ago to visit her mother, Mrs. Margulies, who had married a Canadian and was in the process of obtaining a divorce. She was stopped at the border and informed she had lost her Canadian citizenship by marrying Margulies, a Canadian citizen. She was refused entry to Canada and went to Lexington, Ky., nearly a year ago to visit her mother, Mrs. Margulies, who had married a Canadian and was in the process of obtaining a divorce.

They are starving the sheep out, smashing through fences, and bowling over herds with flying feet and swishing tails that stun them as effectively as a bludgeon.

### CARD OF THANKS

Mrs. Grierson and Mr. and Mrs. Fred Smith would like to sincerely thank all friends for their kindness in their recent bereavement. They would like them to know how it made it so much easier to bear to see so many friends gathered together in silent sympathy. They would like also to thank the Rev. Mr. Stewart and Mr. Tarant for informing them so promptly, in the doing of which they had such an arduous trip.
